

Suspension/Expulsion Form - Innocent Hearts

Our program will provide a purposeful, engaging environment that represents and supports cultural diversity and the different stages of child development. The environment in our classroom will help our children self regulate and build relationships.

All caregivers will help the children on their journey of growth to regulate their feelings, express their emotions and build relationships through positive enter-actions in small and large groups.

Our program will use every resource that our local child care resource and referral agency has to ensure that our teachers are coached and using personal development for the needs of the children in our program. We will give these resources to families that need help with assisting with behaviour issues in our setting or in the home setting. Making sure our children and parents have all resources necessary for mental health issues, academic issues, health challenges and home environment changes will be our first priority. our program will ensure that five steps are followed before any child in our care is suspended.

The outreach arm of Early Learning Indiana ensuring the highest level of early care and education for children in Indiana.

The age of student, the behaviour for which the suspension is been considered , previous incidents or challenging behaviour, the educational needs, the residential and social circumstances of the child

In making a suspension decision all these steps will be taken into consideration.

Expulsions will only be necessary if the safety of the other children and caregivers are at risk. Meaning child brought deadly weapon, the behaviour is so erratic and can't be controlled by carregivers, parents, outside resources or state licensing officials. This policy goes into effect at RCC on September 1, 2018
